CAREER OBJECTIVE

Motivated entry-level software developer with experience in programming and web development. Quick learner who enjoys working with others and is excited to build a career in tech. I graduated with a Computer Science degree from the University of Salento in Italy in 2009 and obtained work experience on real-world projects through an internship at a tech company in my hometown supporting hospitals and clinics in Lecce, Italy.

Upon moving to Australia in 2013, I transitioned to the construction industry, completed a Diploma in Building and Construction Management, and currently working as a Project Manager at a furniture and kitchen company.

I'm currently attending a Web Development bootcamp at Coder Academy to upgrade my technical skills

I'm very passionate about returning to the tech industry and pursuing my true interests in software development now that I've achieved permanent residency in Australia.

Dear Danilo Lannocca

Congratulations on completing the **CCNA Discovery: Networking for Home and Small Businesses** course as part of the Cisco Networking Academy. This hands-on, lab-oriented course has prepared you for exciting career opportunities in the technology industry.

By completing this course you have earned a Certificate of Completion for CCNA Discovery: Networking for Home and Small Businesses, and acquired competencies that include the following:

- Setting up a personal computer system, including the operating system, interface cards and peripheral devices
- Planning and installing a small network connecting to the Internet
- Troubleshooting network and internet connectivity
- Sharing resources such as files and printers among multiple computers
- Configuring basic IP services through a GUI

Technological literacy is more important today than ever before, and Cisco is proud to provide you with the knowledge and skills necessary to build and maintain computers.

Please accept my best wishes for your continued success.

Sincerely,

A handwritten signature in black ink that reads "John Chambers".
